## DRY RIESLING YAKIMA VALLEY

### WINEMAKER NOTES

Riesling is a very versatile grape which can be used to make wine that is bone dry all the way through to a desert ice wine. I like to leave about 1% RS (residual sugar) to compliment the bright acidity. The crisp acidity of our Dry Riesling has aromas of apricots, white flowers and grapefruit. As I strive to do every year, this wine is made in a clean Germanic style by keeping all the oxygen off the fruit, juice and wine throughout the winemaking process. This results in a wine where the aromas pop out, followed by a clean finish of honey, Asian pear, and honeydew melon with hints of stones. It's a great wine to drink on the deck with fruit or a buttery seafood dish. I love a Riesling with anything spicy; it revives the palette and cuts the heat until the next bite.

*Sonya says: Perfect for a summer evening, enjoying some spicy Pad Thai.*

**Wine Lore:** When wine grapes were reestablished in central Washington in the 1970's and 1980's, Riesling was the white of choice. Originally identified for this region due to its ability to withstand our cold winters, in the recent past we have seen a Riesling resurgence. Why? We think the crisp, citrus flavor of this Dry Riesling will answer that question for you.
